

INTRODUCTION

The Mountain Valley Spring, a natural protected spring source, meets all federal and state health standards. FDA regulates bottled water as a food product. The exacting standards of quality and testing directed by the FDA for bottled water is a process Mountain Valley Spring diligently adheres to. Our mission is about ensuring the quality and safety of our spring water; protecting the natural sacred spring source, and providing natural American goodness to our consumers.

OUR SOURCE

The Mountain Valley Spring Water has been bottled at the same sacred spring source, in the Ouachita Mountains, since 1871. Nestled in a remote valley, our spring is surrounded by 2,000 acres of protected forest, and is the perfect result of a 3,500-year journey slowly filtering into granite based aquifers. Every drop is worth the wait.
